Company Summary

Innova & MEP Engineers Ltd. a EPC company is one of the key MEP service providers of Bangladesh.

The company formally started its journey from 2017. Since then it has secured a competitive position in the MEP industry of the country.

The key customers of this organization are spread in different industries, notably Pharmaceuticals, Power sector, Garments, Hospitals, Hotels & Consumer Goods industries etc.

This company's key accomplishment so far is its ability to establish itself as a well-known and reliable MEP service providing company within a very short duration of time. It was possible because, since its inception this organization was focused on learning the relevant technological skill set, creating important partnerships with global equipment and accessories suppliers, understanding and analyzing customer requirements clearly and providing and implementing customized MEP solutions within required time frame.

Company History

2014
Exploration
begins

Innova Engineering & Consultants Pvt. Ltd. was formed. The team started gaining experience in installation and design of Process Piping.

2015
Inclusion of a
new service

Innova starts providing Fire Detection and Protection Solutions and partners with renowned global brand of fire equipment and accessories supplier.

2016
Inspirational
projects

Innova starts providing solutions for Compressed Air and Steam.

2017
Focused Service
portfolio

Innova takes new identity as Innova & MEP Engineers Ltd. The company decides to focus on HVAC, Fire Safety, Process Piping and Turbine Maintenance services.

2017
A big step
forward

Aermec S.p.A, Baluberg, Caleffi partners with Innova for their Bangladesh markets.. The Innova team starts to get bigger and more structured.

2017-21
Sustainable
Growth

Through relentless performance, Innova grows to be a strong player in the HVAC field.

The Innova team increases more in number and the company moves to a bigger office space.

Mission

Innova & MEP Engineers Ltd. is committed to assist businesses grow by providing them with an array of **MEP Solutions**, which are HVAC, Fire Detection & Protection, Process Piping & Turbine Maintenance.

We intend to steadily increase our market share whilst confirming **adequate financial return for the shareholders**. We aim to do so whilst **offsetting negative environmental impact** and reducing pollution by increasing our reliance on **sustainable resources**.

As our competitive advantage we give credit to combined spirit and experience of **our group of young Engineers**, our focus towards customer requirements, the strong design and implementation team that we possess and not to mention, our **sustainable strategic partnerships** with leading multinational brands.

In Innova & MEP Engineers Ltd., the employees are treated as team members. Whilst ensuring safety and wellbeing, the organization targets to ensure a **great work environment** of learning and development, where diverse talents and passion of driven individuals are utilized and they can make an impact.

While doing business, we aim to be **fair and ethical** towards all stakeholders. By our organizational effort, we intend to improve our surrounding environment and the society as a whole.

Vision

Our long term vision is to establish Innova & MEP Engineers Ltd. as the **leading MEP service provider** of Bangladesh and expand beyond its border.

Values

Quality, Teamwork, Excellence, Integrity, Citizenship

Our Services

Chiller Based Air Conditioning Solutions

We design and construct commercial & industrial chiller based air-conditioning systems; our service entails shop drawing preparation, equipment selection & BOQ finalization, procurement, fabrication, installation and commissioning. AERMEC, Blauberg & Caleffi are our equipment and accessories partners for this service segment.

Ventilation Solutions

In order to ensure adequate air exchange in commercial and industrial applications, we design and implement efficient and reliable ventilation systems; our service encompasses preparation of shop drawing up to commissioning. We are working with Blauberg as our ventilation equipment supplier.

Hot Water Generation & Distribution Solutions

For hospital and hotel industries, we provide heat pump based hot water generation and associated plumbing systems. We offer heat pumps from AERMEC.

Utility & Process Piping Solutions

We are capable of compressed air & steam distribution piping, process liquid and gas piping design, procurement and installation.

Our Services

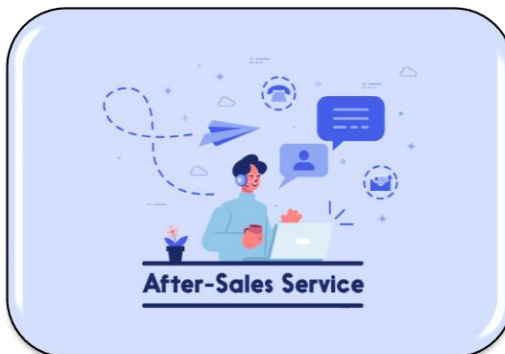

Fire Detection & Protection Solutions

We offer solutions for Fire Detection & Alarm System, Fire Suppression & Protection, Fire Fighting Equipment, Fire Pumps & Controllers and Fire Doors. Our solution partners for this service segment are Honeywell & Naffco.

Turbine Plant Maintenance

We are capable of overhauling and doing maintenance work of turbines. With a dedicated expert team for this service, we have already provided this service to major turbine driven plants.

After Sales Services

We provide on-call emergency troubleshooting service of the installed systems, Annual Maintenance Contract (AMC) & Warranty Support; and maintain ready-stock of emergency spares.

Our Core Partners

A Leading Global Brand Of Air Conditioning Equipment Manufacturer.

- Chiller (Scroll/Screw/Magnetic 1TR-1000TR)
- Heat Pump
- Air Handling Units
- Fan Coil Units
- Precision Air Conditioning Units

A Renowned Brand For Ventilation System

- Industrial Ventilation Fans
- Single Room Ventilation Units
- Smoke Extraction & ventilation
- Domestic Fans

Manufacturer of high-quality components for heating, plumbing, air conditioning, heat metering and renewables systems, for domestic and industrial plants.

- Connection Kit For HVAC Terminal Units
- Pressure Independent Control Valves (PICV)
- Balancing Valves
- Air & Dirt Separators
- Backflow Prevention Devices

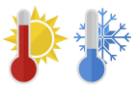

A Leading Global Brand For Fire Alarm & Fire Suppression System.

- Fire Alarm System
- Clean Agent Fire Suppression System

Aermec is a leading global brand within air-conditioning, offering products, services, green solutions which perfectly meet the most demanding market requirements.

Our Current Projects

Coca-Cola-International Beverages Pvt. Ltd.

IPBL production and process area Central HVAC System Design & Construction; Comprised of AHU, Chilled Water Pumps, Sheet Metal Ducting, Metering Devices & Electrical Control System.

Orion Pharma Ltd.

Orion Pharma Ltd. Narayanganj Production Facility Steam Distribution System Design & Construction; Fire Hydrant System Design & Construction

Our Current Projects

Amann Bangladesh Ltd.

Amann Factory Building Central HVAC System Design & Construction; Comprised of Air Cooled Chiller, Chilled Water Pumps, Chemical Dosing Plant, Fan Coil Units, Valves & Accessories and Electrical Control System.

Brandix Apparel Bangladesh Ltd.

Brandix Production Facility Air Conditioning & Fire Detection and Protection Systems Design & Construction; Steam, Compressed Air & Power Generation Systems Design & Construction; Water Distribution & Sewerage Systems Design & Construction

Our Current Projects

The Peninsula Chittagong Airport Garden

The Peninsula Chittagong Airport Garden Central Hot Water Generation System; Comprised of Heat Pump with accessories, Heat Pump Mixing Tank, Hot Water Pumps, Plate Heat Exchangers, Piping, Electrical Control System etc.

First Dhaka Elevated Expressway

First Dhaka Elevated Expressway (FDEE) Central Control Building's Fire Detection & Protection System Design & Construction

Our Current Projects

Bangladesh Air Force Base Zahurul Haque

BAF base Zahurul Haque Hanger Air Conditioning System Design & Construction.

Innova & MEP Engineers Ltd. has been working as a subcontractor under Astron Enterprise.

Some of Our Completed Projects

Nestle Bangladesh Ltd.

Nestle Bangladesh Ltd. Packaging Facility Ventilation System Design & Construction. The project was completed on January 2022.

Some of Our Completed Projects

M.N. Dyeing, Printing & Washing Mills Ltd.

M.N. Dyeing, Printing & Washing Mills Ltd. Factory Building Complete Ventilation System Design & Construction; The project was completed on January 2022.

Orion Power Sonargaon Ltd. (OPSL)

OPSL Plant Ventilation & Air condition System Design & Construction; Fire Detection & Protection System Design & Construction; was completed on July 2020

Some of Our Completed Projects

Evercare Hospital Chattogram

Evercare Hospital Chattogram Hot Water Generation System Design & Construction. The project was a sub-contract under Modern Erection Ltd. and was completed on July 2021.

Orion Power Rupsha Ltd.

Orion Power Rupsha Ltd.

Power Plant Ventilation & Air condition System Design & Construction; Fire Detection & Protection System Design & Construction; was completed on July 2020

Some of Our Completed Projects

Dekko Accessories Ltd.

Dekko Accessories Ltd. Production Facility Ventilation System Design & Construction Project; was completed on November 2020.

Rooppur Nuclear Power Plant

Rooppur Nuclear Power Plant Zone 18 Fire Protection Equipment Supply Contract; completed on December 2020.

Some of Our Completed Projects

MadhuMoti Power Plant

**MadhuMoti Power Plant Ventilation System Design & Construction;
was completed on July 2019.**

Nutan Bidyut (Bangladesh) Ltd.

**NBBL Powerplant Ventilation & Air Conditioning System Design &
Construction. The Project was completed on November 2021**

Some of Our Completed Projects

Enargon Renewables (BD) Limited

Solar Module Cleaning System Design & Construction; was completed on January 2022

Olympic Industries Limited

Olympic Industries, Madanpur packaging unit Steam generation & Distribution System Design & Construction; was completed on December 2018.

Our Team

Md. Shahnewaz Rahaman
Managing Director

BSc. ME (BUET), MIEB

Mr. Rahaman, a visionary person since his student life, is the maestro who formed and lead Innova to its current competitive position in the industry . He guides every team member in achieving their professional and career objective. At the same time, he formulates strategies for enabling Innova to sustain and grow as a leading MEP service provider.

Hasina Firdous
Manager (Design)

BSc. EEE (RUET), MIEB

Ms. Hasina, a well known HVAC designer in the MEP industry, has organized Innova's design and implementation team after she joined this organization on 2018. She has been acting as the main bridge between capturing and consulting design requirements and converting them into practically functional and state-of the art systems with the assistance of project implementation team.

Md. Abu Sufian Ethen
Deputy Director

MBA (IBA, DU), BSc. ME (BUET)

Before Mr. Ethen joined Innova on January 2022, he worked in Multi-national and Government Organizations. In Innova, he intends to combine his engineering and business knowhows to grow the business and implement management visions and missions.

Md. Fahim Rahman
Assistant Manager (Project Management & Planning)

Bsc. EEE (IUT)

Mr. Fahim, an Engineering Project Management Professional, joined Innova on April 2022. He intends to utilize his past experiences of Pharma, Textile and Energy Industries in Innova's Project Planning and Implementation.

Our Team

Manzurul Ahsan (Dipu)
Director

MS. Commerce (NU)

Being an experienced person who served abroad for several years in Business Operation & Compliance, Mr. Ahsan has been implementing his experience in Innova since February 2019. He oversees overall business operation & accounting control.

Hossain Mohammad Arafat
Assistant Manager (Sales)

BSc. EEE (DIU)

Mr. Arafat joined Innova on April 2021. He is an experienced sales & marketing professional who is skilled in negotiation and maintaining customer requirements and satisfaction.

Md. Ashrafur Rahman
Deputy Manager (Business Operation)

BBA (BUBT)

Mr. Ashrafur, who is at the heart of Innova's day to day Business Operation, has been supporting this organization since September 2016. His core competencies that have been excelling Innova are planning project resources, HR management and efficient procurement.

Santosh Sharma
Engineer (Design & Project Execution)

Dip. Eng. (Refrigeration & AirConditioning)

Mr. Santosh, before he joined Innova on July 2019, worked in different organizations as an engineer. His core capabilities include preparation of HVAC & Fire fighting Design Drawing, BOQ and overall on site execution of the projects.

Our Team

Al Muktadir Shakil
Junior Officer (Turbine Maintenance)
BBA (DIU)

Mr. Shakil is an effective member of Innova's Turbine Maintenance Team, who is in charge of site and employee safety. Since his joining in Innova on January 2021, he has been a part of Bibiyana III, NWPGL, APSCL Turbine Maintenance Projects.

Md. Najmul Hossain
Executive (Turbine Maintenance)
BSc. & MSc. Physics (DU)

Mr. Najmul is a part of Innova's Turbine Maintenance Team, who started in this organization on July 2021. He worked as the Site Admin in NWPGL, APSCL Turbine Maintenance Projects.

Shamsul Arefin Haque Tahsin
Management Trainee
BSc. EEE (AIUB)

Tahsin has been with Innova since January 2022. He specializes in designing and developing specifications of electrical systems. He is also capable of planning BOQ and project implementation.

Md. Abdul Momit
Maintenance Engineer
BSc. ME (Sonargaon University)

An expert of HVAC Systems Operation & Maintenance, Mr. Momit chose Innova on February 2022. Here, he intends to utilize his extensive experience & ensure responsive installation, operation & troubleshooting support for customers

Innova & MEP Engineers Ltd.
